# Kevin AYITE

SOFTWARE ENGINEER

**Kigali, Rwanda | +250783168747 | kevinayikson14@gmail.com | GitHub | LinkedIn**

## Education

**Adventist University of Central Africa** **Kigali, Rwanda**

Bachelor of Science in Information Technology – Software Engineering **November 2025**

## Technical skills

- Programming Languages: Java, Python, C, SQL, C#, JavaScript.
- Front-End Frameworks: React.js, Tailwind CSS, Bootstrap.
- Mobile App Development frameworks: React Native
- Databases: PostgreSQL, SQL Server, Oracle DB
- Back-End Frameworks: Spring boot, (.NET), Django
- Data Science & Machine Learning**:** NumPy, Pandas, Scikit-Learn, TensorFlow.
- Data Visualization: Proficiency in Matplotlib and Seaborn (Creating Diverse Plots, Customizing Visualizations, Interactive and Static Visualizations)
- Integrated Development Environments (IDE): Visual Studio Code, PyCharm, IntelliJ IDEA, Eclipse, NetBeans, Jupyter Notebook.
- Operating Systems: Windows, Linux, Unix
- Network Infrastructure: TCP/IP, DNS, HTTP/HTTPS
- Security and System Administration
- Others: Git, Docker, Postman

## Academic Projects

**Adventist University of Central Africa** **Kigali, Rwanda**

**Student Registration Module / Web Technology and Internet** **March 2024**

- Developed a system to manage the registration of faculties, departments, courses, and attribution of lecturers to courses.
- Implemented self-referencing to maintain a relationship between entities, ensuring that departments are linked to their respective faculties.
- Used Hibernate, Servlets, HTML, and Bootstrap framework to develop the web application.
- Incorporated role-based access control and error handling to ensure secure and smooth navigation within the system.
- Utilized sessions to track user activities, including login and logout, and set a session timeout in the web.xml file to increase security.

**Adventist University of Central Africa** **Kigali, Rwanda**

**PCOS Detection / Introduction to Big Data** **December 2023**

- Applied Python concepts to build a predictive model for diagnosing PCOS in women.
- Identified and analyzed a dataset provided by a lecturer, containing important metrics related to PCOS.
- Cleaned and processed the dataset rigorously to ensure high-quality and reliable data.
- Built a predictive model using the cleaned data to forecast the likelihood of PCOS in women
- Integrated the model with Django and created a form for users to fill out, allowing women to determine whether they have PCOS.

## Professional Experience

### Up Skills Hub

**Software Engineering Intern** **September 2024 – November 2024**

- Learned and applied JavaScript fundamentals, React, and deployment tools to create scalable and visually appealing applications tailored to user needs.
- Worked closely with peers and supervisors to refine project requirements, share knowledge, and implement solutions, fostering a productive and supportive work environment.
- Built a responsive travel-themed website, using React and JavaScript, successfully deploying projects on Vercel.

## Certifications

- AI Career Essentials – ALX Africa **December 2024**
- Bridge Program – Carnegie Mellon University Africa **November 2024**
- Advanced Network Operations 2.0 – Internet of Society **July 2024**
- Introduction to Network Operations - Internet of Society **June 2024**
- Complete A.I & Machine Learning, Data Science Bootcamp – Udemy **July 2024**
- Fundamentals of Business Analysis – Baobab **January 2024**
- NDG Linux Essentials - Cisco Networking Academy **November 2023**
- Introduction to Cybersecurity - Cisco Networking Academy **June 2022**
- Networking Essentials - Cisco Networking Academy **April 2022**

## Leadership And Volunteering

- Member of the Media Team – CLA (Christian Life Assembly) Church **December 2024 - Present**
- Coordinator and Facilitator–BCC (Bible Communication Center) **October 2023 – Present**
- Cell Intern - CLA (Christian Life Assembly) Church **September 2023 - Present**

## Interests and Hobbies

- Stand-up Comedy
- Podcasting
- Music
- Travel
- Basketball

## Languages

- French: Native / First Language
- English: Fluent (spoken and written)
